

Lock Out / Tag Out

Electrocution, falls, and crushing rank second to motor vehicle accidents as a cause of fatalities in the work place. The **ANILINE ENVIRONMENTAL LOCK OUT / TAG OUT PROGRAM** provides your organization with the means to effectively manage the hazard posed by electrical and mechanical energy. Required annual employee training classes and a comprehensive procedures manual are provided. ☑

Hazard Communication

Chemicals are useful tools when used properly. The **ANILINE ENVIRONMENTAL EMPLOYEE HAZARD COMMUNICATION PROGRAM** teaches workers to use Material Safety Data Sheets (MSDS) to enhance personal safety and the quality of their work. Our program guide includes a logical procedure for keeping MSDS binders up-to-date. We can also implement the latest computer technology to deliver MSDSs to the shop floor using your company's intranet. ☑

Employee Training

ANILINE ENVIRONMENTAL trainers use effective multi-media training methods recognized by industry and government. We also have experience with computer aided training. ☑

"Commitment to the best!"

ANILINE ENVIRONMENTAL was established in 1988 to provide the same service as an "in-house" industrial hygiene, safety, and environmental department, for small and medium sized businesses, and to augment the professional capabilities of large industrial facilities.

ANILINE ENVIRONMENTAL ASBESTOS INSPECTION, MANAGEMENT, AND ASBESTOS ABATEMENT SUPERVISION SERVICES

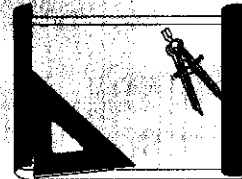

ANILINE ENVIRONMENTAL inspectors survey your property for asbestos containing building materials (ACBM) according to the criteria set forth in the Asbestos Hazards Emergency Response Act of 1986 (AHERA), for schools. Our Inspectors and Management Planners are licensed by the State of Ohio Department of Health, and are well grounded in in both the environmental health and architectural aspects of asbestos hazards in schools, manufacturing facilities, food service areas, offices, and residences.

ANILINE ENVIRONMENTAL asbestos professionals produce Inspection Reports and Operations & Management Plans (O & M Plans) that are unparalleled in the environmental industry for accuracy and presentation. Our reports are completely photo illustrated and presented in deluxe perfect bound waterproof covers.

Call (216) 381-8531 for competitive pricing!

Most often asbestos is maintained within the structure throughout its life cycle. Your **ANILINE ENVIRONMENTAL** Management Planner will advise you of available cost effective abatement alternatives to removal where appropriate.

When removal of asbestos building materials is necessary, we can assist the building owner by preparing the bid specifications, designing the project and prequalifying asbestos abatement contractors. For smaller projects and emergency responses we have maintained a long time relationship with **ADVANCED ASBESTOS REMOVAL CO.** and several other reliable asbestos abatement contractors in our area.

The abatement project will be properly supervised by our staff to assure that all work specification, legal and safety requirements are met. This includes air sampling and surface sampling by qualified technicians to make sure the job was done right. ☑

ANILINE ENVIRONMENTAL always...

- ✓ estimates jobs on a actual cost basis, with no surprises.
- ✓ brings state-of-the art industrial hygiene samplers to the job.
- ✓ specifies PCM, PLM, & TEM laboratory analysis by AIHA accredited laboratories.

ANILINE ENVIRONMENTAL Services for Asbestos Abatement Contractors & In-house Asbestos Workers

WORKING SAFELY WITH ASBESTOS

is our easy to understand program manual specifically written for school, government, and building maintenance workers. It explains government licensure requirements and Operations & Management Plans. This manual also includes procedures for specific small-scale asbestos abatement projects. Instructions are given for proper asbestos abatement practice, use of respirators, and employee medical surveillance. Necessary forms and letter formats are included for easy program administration. ☑

Respiratory Protection

ANILINE ENVIRONMENTAL is the leader in respiratory protection safety. We publish the **ANILINE ENVIRONMENTAL MODULAR RESPIRATORY PROTECTION PROGRAM** [updated to the New 1998 OSHA standard] which presents the use and maintenance of NIOSH / MSHA approved respirators in a logical manner. Your **ANILINE ENVIRONMENTAL** industrial hygienist will specify the proper respirators for your facility to assure maximum safety for your personnel. Our respiratory protection training programs will instill in employees increased acceptance and conscientious use of their personal respirator. Our industrial hygienists and technicians can also provide both quantitative and qualitative respirator fit tests. We also test Class "D" air line respiratory protection systems. ☑
