Industrial Hygiene, Safety, and the Environment

ANILINE ENVIRONMENTAL

A Veteran Owned Company

Consulting Services

for

Commercial & Industrial Real Estate

Phase I & II Environmental Assessments

ANILINE ENVIRONMENTAL performs *Phase I & II Environmental Assessments* to an unparalleled standard of quality. We have a reputation for meeting our client's due diligence and financing qualification objectives. ↗

Consisting of a careful walk-thru inspection of the property, and an in-depth documentation search of the surrounding area, our *Phase I Studies*, exceed the ASTM E 1527-05 Phase I Standard. The goal being to provide the client with a clear picture of the environmental and economic liabilities involved with the property. We insist on including **EDR®** Environmental Data Resources, Inc. Radius Map with GeoCheck, **Sanborn™ Maps**, and other relevant data to assure the completeness of information included in our reports. ↗

Phase II Studies consist of an in-depth risk assessment based upon a complete sampling of the potential environmental hazards associated with the property. ↗

Report Review Service

Our clients, lending institutions, and law firms use us to review the adequacy of *Phase I & II Environmental Assessments* performed by other environmental firms. ↗

Risk Assessments

ANILINE ENVIRONMENTAL has more than two decades of solid experience in assessing and managing risks associated with:

- ⇒ **Air, water, and soil contaminants,**
- ⇒ **Hazardous waste facilities,**
- ⇒ **Occupational hazards,**
- ⇒ **Hazards to wildlife and agriculture,**
- &
- ⇒ **Consumer products.**

Ask us about our risk communication programs. ↗

Energy and Waste Conservation

ANILINE ENVIRONMENTAL clients often realize a cost savings of 50 to 75% by replacing toxic materials with safe ones, and high energy devices with ones that consume 2/3rds less. We perform cost comparison studies on parts cleaning, finishing, and heating operations. Then we save our client's time and money by recommending appropriate technologies which work right the first time. ↗

Licensure of Air Pollution Sources

We are adept in the installation and use of the **OhioEPA STARSHIP** computer aided reporting system. We understand the new rules regarding Title V of the Clean Air Act, federally enforceable operating permits (FESOPS), and synthetic minor permits. ↗

Management and Closure of TSDFs

ANILINE ENVIRONMENTAL has years of experience in writing and implementing management and closure plans for safe operation and subsequent decommissioning of hazardous waste treatment storage and disposal facilities (TSDFs). We also design 90 day storage facilities and small scale treatment systems. Our closure plans, which by law are public record, have become the model emulated by other professionals working in the field. ↗

Environmental Reporting

ANILINE ENVIRONMENTAL environmental compliance specialists can help your company prepare the following reports:

- ⇒ State Hazardous Waste report.
- ⇒ State Emergency Response Commission (SERC) report.
- ⇒ Air Fee Emission report [Title V and Non Title V "blue card"].
- ⇒ USEPA Toxic Release Inventory Form "R" or "A".
